There are more than 22 million administrative and office support professionals working in the United States. More than 475,000 administrative professionals are employed in Canada and millions more work in offices all over the world.

The International Association of Administrative Professionals (IAAP) is a 501(c)(6) registered not-for-profit professional association for office professionals. IAAP strives to be the premier network and resource for the administrative profession. We ensure individuals working in office and administrative professions have the opportunity to connect, learn, lead and excel.

The association was founded in 1942 as the National Secretaries Association to provide a professional network and educational resources for secretarial staff. The association’s name was changed in 1998 to the International Association of Administrative Professionals to encompass the large number of varied administrative job titles and recognize the advancing role of administrative support staff in business and government.

Since 1952, the IAAP has honored office workers by sponsoring Administrative Professionals Week. Today, it is one of the largest workplace observances outside of employee birthdays and major holidays.

Each year, administrative professionals are recognized for their skills and loyalty, attributes almost every office depends upon. Administrative Professionals Week celebrates and sheds light on administrative professionals’ devoted, valued work. Please join us at Germanna in celebrating you this year.
